Public Consultation - Sixth Form Expansion

The Department of Education (DfE) statistics are showing that significant additional post 16 educational places are required in the Southend area.

Southend High School for Girls is seeking to expand its Sixth Form from 300 to 400 to help alleviate this demand and provide some of the additional places needed.

To allow this expansion SHSG has applied to the DfE Post 16 Capacity Fund to provide a capital grant for the extra school facilities that will be required to accommodate the additional students. The expansion will not go ahead if this grant funding is not obtained.

We strongly believe that this expansion and the improved facilities it will provide, will enhance provision at the school and benefit current and prospective students and parents.

We would very much like to hear your views on this proposal. You are invited to submit your comments in writing to aclarke@shsg.org. This consultation will run until 13th February 2023.

Jason Carey
